EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 22:

At line 2, insert –means for – before the word “performing”.

Claim 25:

At line 2, insert –means for – before the word “performing”.

Claim 27:

At line 2, insert –means for – before the word “moving”.

Claim 27:

At line 2, insert –means for – before the word “moving”.

Claim 28:

At line 2, insert –means for – before the word “moving”.

2. The following is an examiner's statement of reasons for allowance:

The present invention pertains a system and a method thereof for improved ATE timing calibration at a DUT. The prior arts, however, do not teach a system and a method having a combination features of assessing a DUT component using an ATE component, performing a simulation based calibration on signal pathways coupling the ATE component to the DUT component, and using simulation based calibration results to calibrate timing propagation delay between the ATE component and the DUT component. Hence, the prior arts of record do not anticipate nor render obvious the claimed inventions. Thus, claims 1-32 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine T. Tu whose telephone number is (571)272-3831. The examiner can normally be reached on Mon-Thur. 8:30am-6:00pm.
